Shungite is aligning everything with nature:

Nature spins to the right, chemicals and toxins spin to the left, shungite energy spins to the right at 20-30 billion times a second

Chemicals
break apart

Simple Principles for maximising shungite potential:

The more the merrier!
When shungite is in a cluster with other shungite they combine their power, sending out a tentacle of energy, that's been captured in this picture kirlian photo by Russian scientist Sofiya Blank

This is why powered shungite is so powerful

Professor Andrievsky research concluded that shungite 'fullerenes' act on a systemic level and not as a treatment for an illness, 'fullerenes' act as an adaptogen **operating both at a cellular level and at the level of the whole body.**

Due to modern society we have more devices emitting radiation in our lives, adding Shungite fullerenes is extremely beneficial, due to their antioxidant attributes, we are able to **correct the imbalance, strengthening the body's systems**, with the shungite fullerenes unique ability to **continuously attract & collect harmful free radicals** which can lead to heart attacks, neurodegenerative diseases & cancer.

Dr. Nina Kolesnikova & team produced remarkable results with patients at the sanatorium near Moscow

Specialising in cardiology, diabetes, hypertension, infectious diseases, the patients **needed much less medication overall** and an excerpt from the study showed that patients **blood levels returned to normal within two weeks** following their cancer radiation treatment when drinking shungite water for the control group this took an average of 3-4 months to return to normal.

Shungite Healing Rooms around the world

White Springs Sanatorium, since 2001 have been offering a range of shungite treatments and successfully alleviating symptoms from chronic illnesses of the respiratory & ENT, lessening musculoskeletal system swelling & pain as well as many other well being results all attributed to shungite.

Voennomeditsinskoy Academy, studies showed significant improvements, with an undeniable advantage in achieving therapeutic improvements with cardiac patients.
